

## SEG2105 - Introduction to Software Engineering - Fall 2017

### Project – Marking Scheme for Deliverable 4 (8%)

#### 5%: Presentation

- Preparation/Organization (roles in the team, questions, ...)
- Valid execution of scenarios.

#### 85%: Code and Completeness

- **Up to 3%** for correct submission (see instructions for deliverable 4)
- **Up to 10%** for code conventions and comments in code
- **Up to 72 %** for completeness (see table below)
- **(-20%)** If code does not compile

#### 10%: Report

- **Up to 2%** for clarity and quality of the document, grammar

**Bonus +5%:** for magnificent implementations and/or fantastic reports 😊

Feature	% Weight (out of 72)
Can add a chore with a name and description	8
Can edit a chore	5
Can delete a chore	5
Completing a chore gives automatically points to the user who completed it. Can see the points obtained (based on the completion of a chore)	5
Can list all chores assigned to an user	7
Can list all chores belonging to a group	7
Can change the status of a chore (completed, postponed, etc.)	5
Can assign a chore to an user	6
Can deallocate a chore from an user	6
Can allocate ressources to a chore	6
Can deallocate ressources from a chore	6
Can see the list of all ressources needed for all chores belonging to a group	6
Can authenticate users (optional)	+8
Can see the complete list of chores on a schedule view (per week or month) (optional)	+8
